Jenny, Peter, Teresa, and Erik,

Attached is a Draft Forestry-Riparian Issue Document that provides the basis for a proposed NOAA/EPA finding that Oregon's CNPCP does not contain adequate management measures to protect riparian areas of M&S fish bearing streams and Type N streams to ensure attainment of water quality standards and full beneficial use support.

I would really appreciate your thoughts on this draft. The document will be review by the CZARA core team and then be used to present this issue to the Agencies' managers. I would really appreciate it if you could get comments to me by Thursday afternoon. Sorry for such a short turn-around.

Feel free to call me if you have any questions.

Thanks guys.

Alan
